## Program:

### **John Graves, executive director of Habitat for Humanity of Danville.**

John explained that being a home owner can lead to people continuing their education, better health and a greater sense of dignity and pride.

The organization is still working with churches and fundraising to complete additional homes and the rehabilitate the old fire station for its offices and storage.

Your newsletter editor apologizes to Mr. Graves and to the members that there are not more notes for the newsletter. Being the ticket chairman, took up most of my attention and I missed a lot of what was said. Again, I apologize.
